

Fight against prejudices!

“Prejudice is an uncomfortable word because it is so painful,” said Price-Wise

Prejudice is an idea or opinion that is not based on fact, logic or actual experience. Prejudice is usually referred to as a negative attitude, especially when it is a hatred or intolerance for certain kinds of people. When a person acts on his prejudice, then it becomes discrimination.

A “**stereotype**” is a generalization about a person or group of persons. We develop stereotypes when we are unable or unwilling to obtain all of the information we would need to make fair judgments about people or situations. In the absence of the “total picture,” stereotypes in many cases allow us to “fill in the blanks.” Our society often innocently creates and perpetuates stereotypes, but these stereotypes often lead to unfair discrimination and persecution when the stereotype is unfavorable.
